HARUHARA ROBINSON

I love quail eggs.
When I'm at a stand that sells grilled chicken skewers, I want to ask for quail eggs, but as an adult, I just maturely ask "Skewer please."
In my mind, I just keep wishing "I hope they include the quail eggs in there."

AND SUMMARY

One day, without warning, a huge hole appeared in the world. And from it, emerged a huge number of monsters into the human world. The king, thinking that the demon lord, who was sealed by Hero Creasion 1000 years ago, has revived, sends out the hero's descendants to vanquish the demon lord. These heroes sum up to be 75 people!

And so the adventure of Hero #45 Alba, and Ross, the royal soldier appointed to accompany him, begins!

Not long after they set out on their journey, they both came across a little girl. She, as it turns out, is the one responsible for the disaster happening in the world, The Third Demon Lord Rchimedes.

Ruki doesn't mean any harm, though. She does feel responsible about her mistake that causes monsters to pour into the human world, which is why she set out on a journey to exterminate those monsters all by herself.

Alba and Ross then join forces with Demon Lord Ruki and end up traveling together as comrades.

With such a set-up, however, various powerful enemies await them ahead! Aiming for the bounty on Ruki's life is Hero #14, Foyfoy, accompanied by his royal soldier, Rudolf. Rudolf, however, having a lolicon soul, falls in love at first sight with Ruki. He then tosses away his fellowship and turns against Foyfoy. In the end, Foyfoy is sent flying by Ross with a single attack.

Rudolf then returns to the palace to report and explain Ruki's situations to the king, but during the process, he ends up being assassinated. On top of that, Alba and Ross, on the suspicion of working together with the demon lord, end up being thrown into the jail all together with Ruki!

Alba's and the others still don't know that the king, along with a shady man named Dezember, are planning something horrible aside from subduing the demon lord at the moment.

After they are arrested, in the jail, they meet Janua, one of the twelve powerful demons, who possesses a tremendous amount of mana. As it turns out, Janua has come to the human world because he was just accidentally summoned over. The moment Janua leaves his masochistic cat friend Mi-chan to Alba and is about to go back to the demon world, a tentacle stabs right through Janua's body! It is Zwei, another one of the twelve powerful demons like Janua.

Right there, Hero Alles, Soldier Hime-chan, and Rudolf—who should've been assassinated but somehow there, appear. Just in time for a big battle that will shake up the world!

RUDOLF I. ATHENA
Foyfoy's royal soldier. A self-proclaimed "Cinderella of Love" who pledges to only love little girls under 12.

ALLES STRAHL
A female hero. She seems to be pursuing Alba, but...?

HIME-CHAN
Alles' royal soldier (?) whose whole body is covered in armor.
